

Vastenkalendar 2023

De winter is geweest, misschien heb je daarna carnaval gevierd. Maar dan begint nog niet meteen het mooie weer. Eerst komt maart (roert zijn staart) en april (doet wat hij wil). Tijd om schoon schip te maken met slechte gewoontes of gedrag. Dat is de traditie van de vastentijd, ook iets voor jou?

Mijn doel is: Naam:

Maandag Dinsdag Woensdag Donderdag Vrijdag Zaterdag Zondag

Stel jezelf een doel om 40 dagen vol te houden. Naast niet snoepen of vasten kan dat bijvoorbeeld minder internetten of gamen zijn, of elke dag iets aardigs doen voor iemand. Is het die dag niet gelukt: teken een sippe smiley. Is het wel gelukt: teken een blije smiley.
